Principles and Process

## EDUCATION

### Christ (Deemed to be University), Bangalore

Bachelors in Computer Application (BCA) · 2022 - 2025

Lead Designer for Interface'23 and InfoByte'24 Magazine

## EXPERIENCE

### Lead Concept Artist, GamEvolve (Fireship Studio)

Internship · May 2023 - April 2024 · Bangalore

- Led the Illustration Team for Apocry, managing a team of 10 members and the overall creative vision.
- Played a key role in visual development and innovative concept art for the game, while collaborating closely with the modeling and development teams.
- Designed interactive assets, including weapons, characters and map with 4 biomes.

### Freelance Logo Designer

July 2022 - Jan 2023

My journey in design began as a freelancer, creating and designing logos for various startups and well-established companies in the finance and transportation industries.

## PROJECTS

### Wealth Maven - Stock Portfolio Optimizer

Oct 2024 - Ongoing

- Collaborated with a team of three to develop a SaaS web application that helps users optimize and analyze their investments based on risk and future goals using Machine Learning.
- Involved creating simplified user interface to ensure a seamless experience, making it easy for users to understand and manage their investments.

### Vaccify - Vaccination Record Keeping

Sept 2024 - Oct 2024

- Designing the UI for a mobile app that addresses the problem of no single app existing for monitoring an individual's vaccination needs without relying on a government agency.
- The app is being designed with a simple and intuitive interface, making it accessible users of all age groups providing a one-stop solution for all vaccination and medical tracking needs.
